

# World Sepsis Day: 13 September 2014

The Global Sepsis Alliance and its founding members have joined forces with other healthcare organizations around the world to mark World Sepsis Day movement. The campaign has made possible the support of our founding organizations and the professionals behind them, as well as the support of outstanding experts from around the world. With our campaign we are educating medical professionals, informing policymakers, and creating awareness among the general public. Our aim is to reduce the incidence of sepsis 20% by 2020.

**World Sepsis Day operates at a truly global level. Different countries and regions act according to their local healthcare systems and economic means. We are proud to look back at such a successful World Sepsis Day 2014.**

**Outlook: World Sepsis Day strategic targets**  
The recognition of sepsis by global health authorities is one key in reducing sepsis incidence 20% by 2020.

**WHO**  
Establish sepsis and relevant treatment within the WHO

**Global Burden of Disease Report**  
Recognizing the global burden of sepsis in the Global Burden of Disease Report

**World Health Assembly**  
Recognition of World Sepsis Day as World Day

**What you can do:**  
**Healthcare Professionals:** Only what is counted counts! Please take care that sepsis is coded according to the WHO Coding system!

**Sepsis Survivors or family, relatives and friends who lost someone due to sepsis:** Speak up about sepsis. It's crucial – your first hand experience helps to raise awareness.

**Please become a supporter of World Sepsis Day and sign the World Sepsis Declaration: [www.world-sepsis-day.org](http://www.world-sepsis-day.org)**

A truly global effort to fight sepsis.  
On every continent. In over 40 countries.

COUNTRY	Event Details
